

Connect. Any Way You Want.

Take one of these
and call whenever you want.

Every day, Polycom video conferencing technology and telemedicine solutions are helping transform the way patient care is delivered. With the help of Polycom, forward-thinking healthcare professionals are actually improving timely access to vital information and care while saving both time and money.

"The ability to educate physicians regarding new medicines and procedures and to assist in effectively diagnosing and treating patients over great distances through face-to-face interaction and real-time data exchange is creating a new paradigm for care not just in the US but international as well."

— **Frank Brady, Chairman, Global Telemedicine and Teaching Network, Medical Missions for Children**

Polycom. The right prescription for the healthcare industry.

Conventional medical training methods often are costly and result in unnecessary time away from patient care. Let **Polycom video conferencing medical education solutions** work for you. Whether connecting your professionals at the bedside, in the surgical suite or class room, Polycom provides **more efficient and cost effective** alternatives for continuing medical education, grand rounds, surgical mentoring and employee training.

Polycom. The leader in Healthcare applications.

Today's healthcare environment demands keeping educational resources current. Polycom clearly leads the way, having installed more video conferencing units for educational purposes than anyone else worldwide.

Polycom video, voice and web conferencing solutions are an important investment in the future business of healthcare.
